WILL PRINT OWN STAMPS

GOVERNMENT WILL NOT GET WORK DONE BY OUTSIDERS.

Bid of the Bureau of Engraving and Printing the Lowest-Other Washington News.

WASHINGTON, Aug. 1 .- The Government will probably print its own postage stamps as the result of the bids opened at the Postoffice Department to-day for the amount. contract for supplying the adhesive postage stamps for the United States for the four years beginning Oct. 1 next. It had been stated that the price asked by the bureau of engraving and printing was exorbitant and that the work would have to go to a private concern. The bureau's bid, how-Five cents per 1,000 for ordinary postage stamp size; seven cents per 1,000 for postage due stamps; fifteen cents per 1,000 for special-delivery stamps; \$2.82 per 1,000 books containing twelve stamps each; \$3.45 per 1.000 books containing twenty-four stamps each, and \$4.46 per 1,000 books containing forty-eight stamps each. The only other bidder was the American Bank-note and Engraving Company of New York, whose bid is estimated to be about \$15,000 higher for the four years than the bureau's bid.

Army Orders.

WASHINGTON, Aug. 1 .- Col. Peter D. Vroom, of the inspector general's department, has been relieved from duty in the Department of the East at New York and ordered to proceed to Manila, Philippine islands, for duty as inspector general of the division of the Philippines.

First Lieutenant William T. Davis, assistant surgeon at Fort McHenry, Md., has been ordered to Fort Myer, Va., for temporary duty with troops going from that post to Roelkey's farm, near Petersville, Md., for target practice.

Lieut. Col. William Ennis, artillery corps, stationed at Fort McHenry, Md., has been detailed for service in the adjutant general's department to fill a vacancy recently created. Lieut. Col. Frederick A. Smith. Twenty-ninth Infantry, and Maj. Herbert E. Tutherly, Eleventh Cavalry, have been similarly detailed to fill vacancies in the inspector general's department.

Court-Martinl Ordered.

WASHINGTON, Aug. 1 .- An order was issued by the Navy Department to-day for the trial by court-martial of Passed Assistant Paymaster Charles W. Penrose, attached to the Michigan. The officer is shot and killed himself at the Powers resicharged with rendering false and fraudulent | dence to-day. Kerney was a deaf mute and returns of balances to his credit, embezzlement, scandalous conduct, absence from station and duty and negligence in obeying | Kerney had been in bad health for two orders. The shortage in balance is said to amount to about \$806. The court will meet on the 7th inst. at Erie, Pa. Commander Perry Garst is its president.

Shaw Will Speak in Vermont.

RETURN OF EVELYN B. BALDWIN TO NORTHERN NORWAY.

Depots of Condensed Food Established and Everything Ready for a Dash to the Pole Next Year.

ICE BROKE UP EARLY IN JUNE

AND THE EXPEDITION WAS FORCED TO LEAVE CAMP ZIEGLER.

Holbein Unsuccessful in His Attempt to Swim Across the English Channel-General Foreign News.

TROMSOE, Norway, Aug. 1 .- Evelyn B. Baldwin, the Arctic explorer, arrived here o-day. He reported all his men in good health and said: "We have been baffled, but not beaten. The year's work has been successful in that enormous depots of condensed food have been established by means of sledges, one in Rudolfland, within sight of the Italian expedition headquarters, another in latitude 81 degrees 331-3 minutes at Kane Lodge, Greely island. These depots, together with houses and stores left at Camp Ziegler, will afford the means for a large polar dash in 1903. All channels through Franz Josefland remained blocked with ice during the autumn of 1901, and prevented the establishment of depots by steamer last year. The breaking up of ice early in June compelled the use of reserve supplies, hence the departure from Camp Ziegler on July 1, in order not to imperil the expedition. I dispatched fifteen balloons with 300 messages, and in June obtained the first moving picsen's hut, recovering original documents and securing paintings of the hut. Marine collections for the National Museum, including new charts, were obtained. In and 170 dogs were employed from May 21 to he destruction of sledges and depletion of food for ponies and dogs, thus rendering

our return imperative. "I shall remain at Tromsoe for a week for repairs to the America's rudder and propeller frame, which were broken by the ice on the return voyage. The main anchor was lost during a gale in October.'

Mr. Baldwin sailed from Vardoe, Norway, on July 30, 1901. An auxiliary expedition started from Vardoe on July 7, 1902, under command of William S. Champ, to

FAILED TO CROSS THE CHANNEL. Swimmer Holbein Unable to Finish

Because of a Strong Tide.

DOVER, Aug. 1.-Holbein, who started at 6 o'clock last night from Cape Grisnez, France, to swim across the English channel to Dover, was obliged after a plucky effort and when in sight of his goal to abandon the attempt owing to unfavorable conditions. He was subsequently landed here. Holbein was in the water thirteen hours and was beaten by the strong tide. desist. At the rate of headway he was then hours to complete the journey. Although more than the distance from coast to coast. At 5:30 this morning he had covered thirty miles, although then he was only eight miles off the French coast. It had been expected that he would reach Varne buoy, six and a half miles off Dover, on the western tide, but as he failed a consultation was held aboard the tug accompanying him and he was advised to quit. Holbein was bitterly disappointed, but climbed aboard without assistance. To every one's surprise he was fresh and strong. His temperature was normal. He took nourishment frequently throughout the night from a rowboat and maintained a steady stroke. He was guided by powerful gas lamps placed on a small boat. The tide threatened to carry him to the open sea when the attempt was abandoned.

EDWARD ENJOYING HIMSELF.

Walked on Deck While the Queen Worked a Kodak.

LONDON, Aug. 1 .- The King had an excellent night, and to-day the royal yacht left Cowes for a cruise to the eastward. His Majesty sat late on the deck last evening, enjoying a ministrel performance rooms. given by the yacht's crew. The Prince and Princess of Wales returned to London to-

There is now no doubt that his Majesty will be strong enough to undergo the coronation ceremonies Aug. 9, but in order to shows that during the month the total reguard against contingencies a special mov- ceipts of the island amounted to \$1,552,635. able chair is being prepared for his Majesty's use should it be found necessary. The King is expected to remain on board four steamships, one of the largest fleets in | the royal yacht at Cowes until the latest possible moment on Friday, the 8th, f this is possible, but there is a strong possibility of his coming to London Thursday. His Majesty is in excellent spirits and greatly enjoyed his seven hours' cruise to Brighton and back to-day. He read the newspapers and walked about the deck of the yacht while Queen Alexandra took photographic snapshots of the yachting

Chamberlain on Empire.

LONDON, Aug. 1 .- Colonial Secretary Chamberlain made a stirring speech tonight when he and Lord Kitchener were guests at a banquet given the Grocers' Company. After paying tributes to Lord Milner, British high commissioner in South Africa, and to Lord Kitchener, Secretary Chamberlain dilated on the new conception of imperial destiny, in which, thanks to the South African war, he said, ideas of kinship and mutual obligation had been sub- prominence. stituted for mere pride of possession or huckstering calculation about profit and loss. The speaker said he foresaw in the reorganization of the newly-acquired South African territory something that would make the mighty empire more than a mere geographical expression. "We hope," said he, "to make it a living entity, in which each part shall contribute to the success and security of the whole.

Lynch Committed for Trial.

LONDON, Aug. 1 .- Col. Arthur Lynch, the National member of Parliament, who is accused of high treason during the Boer war, was taken to Bow-street Police Court to-day. Before the court committed him for trial, Colonel Lynch made a long statement, in which he said that he had gone to South Africa under contract with the Paris Journal, and that he had not expected to stay more than two months. He zine. Collier's Weekly and several other American publications. He denied that he saw Dr. Leyds, the Boer agent, before starting, and he declared that he had no mission from Leyds to the Transvaal. At the close of his statement, Lynch was committed for trial. Before going to court, Colonel Lynch was visited in his prison cell by W. H. K. Redmond and other Nationalist leaders.

Two Great Bams in the Nile. NEW YORK, Aug. 1 .- Announcement is

made that the last coping stone of the Nile dam at Assouan was laid on Wednesday, says a Times dispatch from London.

greatly increase the area of sugar cultivation. The reservoir will supply 1,000,-000,000 cubic metres of water annually. The dam at Assouan is one and a quarter miles long. The work at Assouan will probably be finished by the end of the year.

400 More Schools to Be Closed.

PARIS, Aug. 1 .- A cabinet council was held to-day at Rambouillet, where President Loubet is staying. The premier, M. Combes, explained that 6,000 religious establishments had not applied for authorization, as rejuired by the law of associations. Half of he number acted in good faith, belonging to the category of charitable institutions, which were exempted from the operations of the law. All save 400 of the remaining half had obeyed M. Combes's circular and closed voluntarily. These decrees were submitted to President Loubet to-day, and he signed them.

Hitch in Treaty Negotiations.

LONDON, Aug. 1 .- A news agency dis-

patch from Shanghai says a serious hitch has occurred between Sir James L. Mackay and the Chinese treaty commissioners, threatening to disrupt the negotiations looking to the adoption of the former's scheme for Chinese tariff revision.

Lord Pauncefote's Estate.

old rifles to China.

LONDON, Aug. 1.-The will of the late Lord Pauncefote, British Ambassador to the United States, has been proved. The value of the estate is placed at £63,700.

Cable Notes.

Dr. G. Carlin, late Swiss minster to Italy, has been appointed minister to Great Britain, replacing Dr. C. D. Bourcart, who was ordered to Washington, to relieve J. B. Pioda, Swiss minister to the United States, who goes to Italy. Dr. Bourcart, however, declined the Washington mission

D. E. Shackelton, a member of the Labor

party, has been elected to the British House of Commons without opposition to fill the vacancy in the seat for the Clitherge division of Lancashire, caused by the elevation to the peerage of Sir Ughtred James Kay-Giuseppe Musselino, the brigand, when

he was taken to the penitentiary at Portolungone, to serve a life sentence for murder, said to those who had prosecuted him: "They need not flatter themselves that they have heard the last of me; I shall reappear." Musselino was sentenced to life imwas given to show that he had killed thir-The annual report of the Austrian Asso-

ciation of Paper Dealers says that the stationery business will be ruined unless the use of picture postal cards as substituted for letters should diminish. The enormous extent to which the picture cards are used on the continent is shown by the fact that more than 250,000 of them were mailed from Gratz this week during the German saengerbund festival.

THE PRESIDENT'S PRIZE.

How the Mayflower's Gunners Will Contest for \$25 in Gold.

OYSTER BAY, Aug. 1.-Arrangements practically have been completed for the Mayflower's target practice in Gardiner's bay, next Wednesday, for the prize of \$25 in gold offered by the President. The President and Mrs. Roosevelt will be witnesses of the contest. They will leave here on Tuesday on the Sylph and probably will board the Mayflower that night. The practice will be conducted under the usual naval regulations. A target twenty feet wide and sixteen feet high will be placed on a float. The Mayflower, at a distance 1,500 yards, will steam past the target at a speed of five miles an hour. The armament of the Mayflower consists of twelve rapid-fire guns, two gunners being assigned to each. empetition for the prize will be among hese twenty-four men. Each gunner will have two opportunities to demonstrate his skill in periods of two minutes each. Concerning the stories of ill-treatment of the men on board the Mayflower, Lieutenant Commander Gleaven, in command of the vessel, says this afternoon that gross exaggerations of the real conditions had appeared in some newspapers. He admitted there had been some desertions, principally from the engineer's department, but that really there were no more than might have been expected in the circum-

Outside of the engineer's room the members of the crew, he believed, were reasonably well satisfied. He denounced the stories that the men had been given mildewed bread and spoiled meat as absolutely without foundation. The story that the men were forced to buy their supplies from the canteen on board ship was pronounced ridiculous. Candy, chewing gum, writing paper and similar notions are the principal articles handled by the canteen.

Two Mammoth Side-Wheelers.

DETROIT, Aug. 1.-The Free Press will announce to-morrow that the Detroit & Cleveland Navigation Company has about completed arrangements for the building of two new side-wheel passenger steamers to outrank in size and carrying capacity any ide-wheel passenger steamers in the world The estimated cost is \$850,000 for each boat. Each boat is to have four decks, 1,000 persons being the carrying capacity of each deck. Each boat will have a sleeping capacity of from 1,100 to 1,200, with 300 state-

Cuban Finances.

HAVANA, Aug. 1 .- At a meeting of the Cabinet held to-day, Garcia Montes, secretary of finance, presented the financial statement for the month of July. This The balance from the month of June amounted to \$745,371. Payments for the month of July amounted to \$1,236,850, and the balance is \$1,061,156. The average monthly expenditure during the last year Cuba was under American control amounted to \$1,534,404.

\$1,000,000 Endowment Fund.

NEW YORK, Aug. 1.-The international committee of the Young Men's Christian Association announced to-day that it had been pledged the \$1,000,000 endowment fund for which it has been striving, and for which the impulse had been given during the jubilee year by the promise of \$250,000 from one of its best friends. Of this amount piedged six persons gave \$632,000. Only 150 persons besides association secretaries were asked to subscribe, and of that number fifty-six contributed.

LOS ALAMOS VALLEY IN CALIFORNIA IS STILL SHAKING.

There Was No Great Damage Done, or Fissures Rent in the Ground.

as First Reported.

TEMPERATURE IS OPPRESSIVE

HEAT FROM THE EARTH ADDED TO OLD SOL'S BURNING RAYS.

Mr. Conway of Opinion the Disturbances Are Due to Gases and Oils, Not to Volcanic Action.

SANTA BARBARA, Cal., Aug. 1.-During the forenoon to-day four severe shocks of earthquake were felt in Los Alamos valley and several buildings not already destroyed were cracked badly. One immense structure, belonging to Juan Careaga, a short distance from Los Alamos, was turned partly around on its foundation Everybody who could left Los Alamos today, many departing on a special train sent from San Luis Obispo. Late advices state that the earth continues to tremble at intervals.

The town of Los Alamos is situated about midway between Sant Ynez and Santa Maria in the long narrow valley of Los Alamos, fifteen miles from the coast. The Los Alamos valley is from one-half to one Shuttleworth, who sat for the division as a | mile wide. The population of the valley is about 800. The damage in the village will not exceed \$10,000 in the opinion of conservative residents of the place. Not a building escaped injury, and it is considered marvelous that no one was hurt.

risonment after a trial in which evidence | C. Bagby, of Santa Maria, who was a guest | and bricks. His first shot was fired in the at the home of W. P. Whitney, undoubtedly saved the business section of the town and many of them carried clubs. fire to the place. Without a thought for his own safety, Dr. Bagpy rushed upstairs | to-day: and found Mrs. Whitney vainly fighting flames and seemingly surrounded. Drawing her from her place of danger he beat out the fire with blankets and thus saved a life and a large portion of the busness center.

Parties from Lompoc and outlying districts have reached Los Alamos with stories of havoc. A great landslide, carrying down hundreds of tons of earth, occurred near the Hoover ranch. The road from Lompoc was buried for fifty feet. As far as the eye can reach from this grade to that there are spots on the mountain side indicating where huge bowlders were sent thundering down the valleys. John R. Drum, a mountain farmer, reports a road-destroying landslide in Drum canyon. The face of the hill is charged with noises which Drum describes as the most terrifying sounds he ever heard. The oil wells around the town of Los Alamos seem not to have suffered. Since the beginning of the earthquake shocks the temperature has been most oppressive, as there is as much heat apparently coming from the earth as from the sun, which for most of the time has been shining brightly.

Professor Larkin, of Mount Lowe ob servatory, arrived at Los Alamos this evening. Over the telephone he stated the Stone's general order, placing troops on disturbances are of a nature known as oscillatory earthquakes and are of a common nature. He says that it is quite probable they are due to the sunken displace- | der follows: ment of immense bodies of gases seven or eight miles beneath the surface of the earth. While the country about Los Alamos gives evidence of once having been the scene of vast volcanic action, he observes nothing to indicate that another calamity of that nature is likely to occur. Professor Hilgard, president of the agricultural department of the University of California, who telephoned Attorney Leslie advising him and the people of Los Alamos to desert their homes for places of safety, and whose statements have been attributed to Prof. Benjamin Ide Wheeler under a misapprehension, has written to Leslie stating that the advice was given as a precautionary measure and not in anticipation of further earthquakes.

First Reports Exaggerated.

LOS ALAMOS, Cal., Aug. 1.-The reports telegraphed from this place and other sections of Santa Barbara and San Luis Obispo counties, telling of the enormous damage done here by the series of earthquakes, which have visited this county and this vicinity in particular at frequent intervals since July 27, have grossly exag-It is an undeniable fact that there has

been an unprecedented number of earthquakes, some of them more or less severe. but as to the reports of great fissures in the earth, upheavals of the earth and similar stories of the havoc wrought, it is only charitable to say that they are untrue Within the limits of Los Alamos the property damage will not exceed \$4,000. Several slight shocks were experienced this morning, but no damage was done beyond further dismaying the inhabitants of this

CAUSE OF THE QUAKES.

Mr. Conway Thinks They Are Due to Subterranean Gases and Oils.

SAN FRANCISCO, Aug. 1 .- John F. Conway, who has made a life study of the geology of the country, believes the disturbances are in no way due to volcanic activity. His theory is that the earthquakes are occasioned by subsidences caused by the action of the subterranean gases and oils in which the region is known to abound. It has been known for years that gas was being generated beneath the earth's surface in the vicinity of Los Alamos, Professor Sillman, of Yale, in 1866, put forward that theory and added that he had nowhere seen such evidences of the presence of hydro carbons. This was substantiated lately by F. McMillan, a San Francisco mining engineer.

For many years there has been a small. active volcano on the Los Alamos side of the mountain which lies between that place and Santa Barbara. Smoke and steam constantly issue from various fissures along the summit of a plateau or shelf near the northern slope of the mountain. Viewed from the distance of the old stage road these manifestations appear like small camp fires. They have never developed any alarming tendencies and have attracted very little direct investigation.

MITCHELL AN IDOL. (CONCLUDED FROM FIRST PAGE.)

specifically declare myself opposed to any special clause of lawlessness. As a citizen of the United States and chief executive of the miners' organization I have declared on innumerable occasions and in language not susceptible of misconstruction, that I am opposed to lawlessness of every character; and I do not propose to alter my views to conform to the tenets of the Citizens' Alliance, namely, wink at capital crimes while inveighing against minor offenses. I have never in my life sought to condone an unlawful act. I have thrown the full weight of my personality and my influence on the side of law and order, and I can say, without egotism, that the miners' union and its officers have done more for the conservation of peace than all the alliances that can or could be formed by men like yourselves whose sympathy with the poor and oppressed is like unto the friendship Brutus entertained for Caesar. "I did not assume to say there have not been some transgressions of law by the miners, but I do say and defy you to successfully contradict the statement that there has been much less lawlessness on the part of the miners-and that which has occurred has been less serious in proportion to their number-than on the part of the ner's jury, which has been investigating against whom you have made no protest

ng the progress of the strike than for a ilke period preceding it. 'Again, I have no hesitancy in saying

there never was a great upheaval, either industrial, political or social, in which there was as little real lawlessness as has existed in the anthracite region since the strike was inaugurated. As I said in my speech at Nanticoke-to which you took exception-the miners are as law-abiding, as patriotic, as liberty-loving as any other class of citizens in our country, and I shall not permit you to malign them or defame the residents of this community, either by direct charge or insinuation, without registering an emphatic protest.

SHENANDOAH STILL QUIET.

Funeral of Joseph Beddall-Testi-

mony at the Coroner's Inquest.

SHENANDOAH, Pa., Aug. 1.-This was

an uneventful day in Shenandoah and surrounding country. Absolute quiet prevailed everywhere and the general feeling of un easiness which had prevailed is rapidly dis appearing. The troops spent the day in perfecting their camp arrangements and comparatively few of them were in town None are permitted out of camp after dark There was much sympathy expressed to day by the citizens generally over th death last night of Joseph Beddall as result of injuries received in the riot of Wednesday night. He was well known in the business cummunity. His funeral will ake place on Monday afternoon, and he will be buried with Masonic honors. Rev. W. H. Stewart, of the William Penn M. E. Church, said to-day that Beddall on his deathbed denied that he was carrying am-

The inquest on the death of Beddall was begun to-day, and after four witnesses had been examined the further taking of testimony was postponed until next Thursday. According to the testimony of Dr. dall received a terrible beating at the hands was a fracture of the skull four and a half inches long and one inch wide. Besides this the unfortunate man suffered other

munition to his brother Thomas, the dep-

uty sheriff, who was besieged in the rail-

coad station where the trouble occurred.

serious fractures and contusions. It was testified at the inquest that he did not us It was brought out that Deputy Sheriff Thomas Beddall, who was escorting the three workmen from the colliery, did not use his pistol until after he had been as-Advices from Los Alamos say that Dr. H. | sailed several times by a shower of rocks air and the second into the ground. There was more than a hundred men in the crowd Brig. Gen. Gobin said to-night that while

everything is quiet there is a feeling of

unrest among the great army of idle men

and boys. He issued the following order

"The brigadier general commanding desires to commend the officers and men of the several commands now in camp at It is located at Fourth street and Broadway, Shenandoah for their prompt responses to the call for duty and the rapid concentration where their services were required. It is most commendable and cannot fall to establish to a still greater extent the confi- FRANK CALDWELL, President. dence of the people in the reliability of the troops. The utmost care and observance of discipline is enjoined upon all. The peuliar character of the service required renders it necessary for officers and men to be constantly ready to respond to whatever may be required of them. The visitation to saloons and drinking places by officers and men is strictly prohibited, and violations of this order will be rigidly dealt with. The good name and reputation thus far achieved can only be maintained by strict observance of military law and the same adherence to duty always required of soldiers." The mine workers' officials are still at work obtaining signatures to the petition to be sent to the Governor requesting him to withdraw the troops.

Governor Stone's Order.

HARRISBURG, Pa., Aug. 1 .- Governor duty at Shenandoah, was made public today by Adjutant General Stewart. The or-

"Unlawful assemblages of persons have congregated in some sections of the Commonwealth, and by acts of violence and disregard of law, have taken human life and placed life and property in jeopardy. The civil authorities are unable to preserve the public peace, protect life and property, and secure to citizens of the Commonwealth their rights and privileges under the constitution. Lawlessness, disorder and conduct tending to disturb the public peace and the safety of life and property will be suppressed, and to that end such portions of the National Guard as may be necessary to enforce the laws will be placed on duty to assist the civil authorities in restoring and maintaining peace and order. "The sheriff of Schuylkill county having advised the Governor of his inability to preserve order and protect life and property, and the Governor being satisfied, upon investigation that tumult, riot and mob vio-

lence does exist, the major generals com-

manding the division National Guard of

Pennsylvania will place on duty such por-

tions of the division as in his judgment

may be necessary to properly assist the

sheriff of Schuylkill county in restoring

and maintaining peace and order. No More Mine Guards at High Wages. PHILADELPHIA, Aug. 1.-No men have from this city to act as mine guards for more than two weeks past. The reason assigned is that the big operators, by whom they were employed, have found the expense too heavy and that, moreover, they came to the conclusion that the large force which had been engaged in this city, New York, Baltimore and the South was not required. It was, therefore, determined to drop at least 30 per cent. of the total number engaged, estimated to be about 5,000 and after that reduction occurred to fill the places with men who could be secured for the work at lower wages. All of those On the 30th day of June, 1902 who were hired in Philadelphia received \$2.50 per day. About 1,000 were thus contracted for. Of these it is believed that 300 or 400 have returned home. Their places

were filled by men who could be got in the coal country for \$2 a day.

A Machinist Frightened. WILKESBARRE, Pa., Aug. 1.-A ma- O. R. LOOKER, President. chinist named John Loux, employed at the Empire colliery, this city, reported to the police this evening that while on his way to work this morning a party of unknown men held him up and threatened to hang him to an electric light pole if he went to work. One man in the party lowered the arm of the electric light pole and proceeded to get the rope in noose shape when the machinist fled and made his escape.

Work Slack in Indiana.

A letter from Secretary Kennedy, of the bituminous district of Indiana, in the United Mine Workers' Journal, confirms the report that work is slack in Indiana | Loans on bonds and mortgages of mines. He says many of the mines are working two to four days a week. Reports from Montgomery say the mines are idle, but this is the only locality where men are not at work a part of the time. It is thought that, in anticipation of a general strike, the mines were heavily worked and surplus of coal was stored up. This surplus will have to be disposed of before the mines will resume steady work. In summing up the strike situation the Journal says: "West Virginia men are still firm. Judges Jackson and Keller have enjoined the strikers from doing anything save swimming, flying and sleeping.

Fight Between Elevator Interests. BUFFALO, Aug. 1.-The Commercial says: "It was learned late this afternoon that the Great Northern elevator, capacity 3,000,000 bushels, has withdrawn from the Western Elevating Association. The Great Northern elevator is owned by the interests controlled by James J. Hill, owner of the Northern Pacific Railroad. The withdrawal of the Great Northern from the Western Elevating Association was followed immediately by discrimination on the part of the railroads controlled by the Vanderbilt interests against the Great Northern. In brief, a fight is on now between the Vanderbilt interests and James J. Hill."

Accident Due to Negligence. ROCHESTER, N. Y., Aug. 1.-The coro-

deputies and coal and iron police who are the recent Lehigh Valley Railroad wreck charged with authority and are specifically in this city in which one man was killed commissioned to preserve the law, and and a score or more persons injured, to-day rendered a verdict that the disaster was The Nile reservoirs, for which the great | seriously injured in a runaway here to- and your association taken no action what- due to the criminal negligence of Conductor dams at Assouan and Assolut have been night.
